Your specialist for fine edible oils

About us

Behind Brändle vita brand stands a traditional family business. The Brändle vita brand combines much more than a promise of quality. Brändle stands for over 150 years of tradition. In addition to quality and tradition, sustainable and responsible management are essential components of our philosophy. Our products are subject to the strictest testing procedures and are manufactured and packaged in an environmentally friendly manner that guarantees our unique product quality. The protection of the environment is an important task for us. Social and societal commitment are also firmly anchored in our corporate philosophy. We maintain good relationships with our consumers, suppliers, business partners and employees by communicating openly, honestly and cooperatively.

Our entrepreneurial independence as a family business puts us in a position to meet the requirements of the market on short decision-making paths. The long-term safeguarding of the company's existence and jobs is the focus of our actions.

Our portfolio for your success

We attach great importance to a high level of quality. Brändle-vita oils stand for quality without compromise and for the combination of tradition and progress. Through high quality standards (IFS and organic certification, GMP+ International and QS Certification in the field of animal feed), the use of a comprehensive HACCP concept, careful selection of raw materials and strict quality controls throughout the entire production process, we guarantee you constantly tasty and healthy oils. Compliance with our quality standards includes the selection of suppliers for oilseeds and oils as well as suppliers for glass and packaging materials. Here we carry out complete traceability throughout the entire production process. Each delivery is checked, examined by accredited laboratories according to a defined analysis plan and the results are documented. This enables us to meet the increasing demands on the quality of food.

- All oils are vegan and lactose free
- Complete traceability of raw materials and goods
- Filling of small containers (100 ml) to large containers (1,000 L)
- Strict internal quality management
- Own production in our oil mill
- Over 30 different types of oil in its product range
