Finest German Food Since 1876

About us

Everything began back in 1876, when Richard Alfried Hengstenberg signed a partnership agreement with a small vinegar factory in Esslingen. Ever since - now already for more than 140 years - Hengstenberg has stood for fine flavour, genuine enjoyment and the very best quality. Vinegar and pickled gherkins were the company's first products. Subsequently, the range expanded to include cabbage and tomato products. Today, Hengstenberg's portfolio comprises more than 140 products, including the well-known Mildessa sauerkraut and red cabbage, KNAX & STICKSi gherkins or Altmeister vinegar. Constantly working on new product developments is a matter of course for us, because innovation is as much a part of our DNA as high quality standards. Apart from the headquarters in Esslingen, where the company was founded, there also are two other German production locations, one in Bad Friedrichshall near Heilbronn and one in Fritzlar near Kassel.

Our portfolio for your success

To this very day, we remain committed to the guiding principle of our founder, Richard Alfried Hengstenberg: Making the finest food from good ingredients. This means that we remain true to the Hengstenberg principle in everything we do: No compromises when it comes to quality! Hengstenberg attaches great importance to regional and high-quality raw materials, which are carefully processed into top-quality products, using traditional methods. For Hengstenberg, high quality and sustainability are not just empty words, but a company tradition that is lived in our daily work. The close proximity to the cultivation areas plays an important role in the production plants in Fritzlar and Bad Friedrichshall. The plants are located in the heart of excellent vegetable growing areas, thereby ensuring that the majority of the processed goods come from fields of the long-standing contract farmers in the immediate vicinity. With extensive experience and the family's own recipes, Hengstenberg processes the local vegetables into its popular products. This quality „Made in Germany“ is not only in demand domestically, but also abroad. Hengstenberg exports to more than 40 countries worldwide.

- German family business since 1876
- Strong brands with market leading position
- Regional raw materials & long-term partnerships along the supply chain
- Innovative strength & high sense of quality
- Sustainability is a company tradition
- Think globally, act locally is our orientation
