Bünting Group: Dare to win the future

About us

The Bünting Group began under the name „J. Bünting & Co.“ in 1806 as a small colonial goods trade: tea, coffee, tobacco and spices were the beginning of a development that was rapidly growing just a decade later.

Already in 1815, the small colonial goods shop grew to become an increasingly important player in trade. And so tea import, tobacco production and coffee roasting were soon being run by the company itself. This willingness to take things into one's own hands is typical for all activities of the Bünting Group and has led to a continuous expansion of the business fields - up to the present company with over 12,000 employees.

Today, the company not only focuses exclusively on the tea business but has successively built up a wholesale business, is operating service companies and is operating the largest German full-range food online shop.
