Geprüfte Qualität Schleswig-Holstein

About us

Regional manufacturers are united by the seal of quality „Geprüfte Qualität Schleswig-Holstein“. They produce various agricultural and food products. The excellent range of products is diverse. All foods that carry the quality seal are subjected to strict tests by independent laboratories several times a year. This is how we have been ensuring that the taste and quality of the products are convincing for 55 years.

The majority of the participants are small and medium-sized companies and voluntarily participate in the quality program. As an umbrella organization, the Chamber of Agriculture operates community marketing and supports the members in sales promotion and in ensuring product quality. Thanks to decades of work, the quality label is a close partner of business, science and politics. Detailed information available at: www.gzsh.de

Our portfolio for your success

The Department „Gütezeichen“ of the Schleswig-Holstein Chamber of Agriculture is not only responsible for the quality seal „Geprüfte Qualität Schleswig-Holstein“. It is also the coordinator for „QS-System“ and „Initiative Tierwohl“, maintains the internet portals GUTES VOM HOF.SH and WIR FISCHEN.SH and is the office of the association KäseStraße Schleswig-Holstein.

- Quality products from Schleswig-Holstein for more than 50 years
- Strict audits by independent laboratories several times a year
- Community Marketing
- Close cooperation with business, science and politics
- Mostly small and medium-sized companies
