Respect for nature and a commitment to quality are part of our philosophy.

About us

We measure time in generations.

Our customers have high expectations with the name Heimatsmühle. Our flours and foods stand for taste, health and enjoyment. For over 200 years, Heimatsmühle has been sourcing its grain for the packs of Heimatsmühle quality branded flours, mainly from regional suppliers. That is the maintenance of tradition, which serves the quality.

We respect nature. That is why we maintain a concept that is close to nature and has many facets: from the design of the range and the agricultural use of our land to the annual awarding of our nature and environmental protection prize.
