## Deliciously fruity spreads since 1932

### About us

Over 80 years and for three generations Simmler is synonymous with the production of exquisite jam connected to delight made in the southern Black Forest! In the family business, the art of manufacturing and preservation is lived.

We are turning precious fruits in real treats. Traditional, crafted and with great experience –Everything to get you enthusiastic about jam!

Our assortment of jam offers you a very broad multiplicity of delights, based on more than 20 different varieties of fruits: from A as Apricot to Z as Zwetschge (a special plum in Germany). Our favourites are blackberry specialities. We are only using fruits from South Baden. This makes the specialities extra delicious!

Our products have an excellent taste and have also received many awards. The special quality of our products has been recognized in quality competitions for many years. We have been taking part in national and international competitions with our products since 2006 and have already received well over 250 awards for products.
