Home of Swabian Spaetzle and Pasta

About us

ALB-GOLD is a traditional family-owned and operated firm situated on the Swabian Alb in Southern Germany. The company was founded in 1968 as a chicken farm and started producing pasta in the late seventies; acquiring over 40 years of pasta experience. Today the ALB-GOLD Group is the second largest pasta producer in Germany with two facilities; one of them including a customer center for visitors of all ages.

We take great care to manufacture only the highest quality products by using the best organic and non-GMO raw materials. ALB-GOLD works closely with its farmers, mills, and suppliers in order to ensure the best quality. Our extensive organic pasta assortment ranges from egg pasta to spelt pasta, from Italian specialties to traditional German Spaetzle, from gluten free products to Asian style Mie-Noodles, fun shaped pasta for kids, and even pasta made from legumes or so-called pseudocereals. Detailed information available at: www.alb-gold.de/en

Our portfolio for your success

Our durum wheat pasta is made from 100 % durum wheat semolina or durum wheat semolina and fresh eggs. We offer also delicious spelt pasta with and without eggs.
