## All organic – Naturally!

### About us

Our name represents our programme: biosanica produces exclusively foods from controlled organic farming. By manufacturing our tasty bio-apple-products we demand especially high standards-from the obtainment of first-class raw materials, via gentle manufacturing up to the point of most accurate supervision of quality.

Having started in Bavaria, we opened our new, modern and considerably bigger manufacture in Mecklenburg-Vorpommern in 2013. Due to the modern technology, we can just produce higher quantities without using more energy. The biosanica GmbH is a personal investment by Norbert Braun (Braun Beteiligungs GmbH, [www.braun-beteiligungen.de](http://www.braun-beteiligungen.de)).

Detailed information available at: [www.biosanica.de](http://www.biosanica.de)
