Because salt is not just salt.

About us

The products and services of K+S are crucial for supplying the population in the fields of medicine, pharmaceuticals, food production, agriculture and animal feed. By using our underground caverns, we also contribute to an orderly waste management system.

Whether as a spice, culinary salt or preservative: salt has been an essential component of our diet for thousands of years. We provide a steady supply.

Salt used to be considered white gold and it still plays a vital role for us today. Whether as a spice, table salt, or preservative - salt is an essential component of our diet. Our culinary salt brand SALDORO[®] comes in a modern look, offering natural taste and inspiration for shared enjoyment. Detailed information available at: www.kpluss.com/en

Our portfolio for your success

The roots of the K+S Group go back to the middle of the 19th century. At that time, miners in Germany extracted the world's first potash deposits and began producing fertilizers. Today, the K+S Group is an internationally oriented raw materials company with production facilities in Europe as well as North and South America. More than 14,000 employees all over the world make K+S successful and dynamic.

As in many other areas, quality is what counts. Cooking with high-quality products is a social trend. This also includes a guaranteed quality of our SALDORO[®] culinary salts, which are produced and packaged using the most modern processes and in strict compliance with the highest quality, hygiene and safety standards. This enables us to contribute to a safe, high-quality diet and we also help make food delicious.

- High-quality and pure salts
- SALDORO[®] Premium rock salts from Germany and sea salts from the mediterranean natural park
- Highest quality and production standards
- Unrefined, milled and packed in the salts' genuine condition
- Promoting a sustainable development in rock salt mining
