The Taste of Tauberfranken

About us

Becksteiner Winzer is a German winery which is located in the region between Baden and Franconia. The limestone with its minerals deeply in the ground together with the cool climate let grow fruity and fresh wines with a fine flavour and a nice mineral touch – rich enjoyment. The winery Becksteiner Winzer was founded in 1894 as a cooperative, when 18 winegrowers began to work together. Today our vineyards have an area of 250 ha, that means 2.500.000 m². With approximately 3.000.000 bottles per year Becksteiner Winzer has a very good readiness for delivery. The grape variety is divided in 50% red and 50% white. The wines have plenty of international prizes, e.g. the international wine competition Berlin Wine Trophy or the AWC Vienna but also the famous Gault&Millau and the winegrowers association describe us as one of the best cooperatives. The product range of Becksteiner Winzer consists of still wines white, rosé and red but also of proseccos and sparkling wines methodé champenoise white and rosé. The quality goes from basic wines to premium, outstanding and perfect ones.

- Cool climate for fresh wines
- Shell limestone soils for fruity wines
- Social and sustainable actions

- Speed and reliability
- IFS certification
