Naturally natural.

About us

Naturally natural - that's what the NutriPur brand has stood for over 5 years. NutriPur was founded by Heiko Gothe in 2017. Started as the „little sister“ of our popular RezeptGewürze spice boxes, we set ourselves the goal of bringing natural products for snacking and breakfast to the market.

Anyone who takes a close look at the topic of nutrition and food will quickly realize that many products today contain more than they should. Preservatives, colorants and again and again ... sugar.

Even our youngest children are flooded with completely over-sugared foods - a circumstance that not only has a long-term negative impact on health (obesity, diabetes, ...), but also permanently distorts the sense of taste.

We find: This does not have to be! And therefore we would like to set a counter-trend to the popular refined foods with our products. With NutriPur we offer the right ingredients for mueslis, smoothies and co.

Our portfolio for your success

NutriPur delivers products that make healthy eating colorful and fun. The portfolio is made up of freeze-dried fruits, smoothie bowls, smoothie powders and chickpeas. The freeze-dried fruits, smoothie powders, smoothie bowls and chickpeas are available through the online store www.nutripur.eu. In stationary trade, the freeze-dried fruits are available at selected EDEKA, REWE, Bio Company, Tegut and Globus branches.

- 100 % natural
- Freeze-dried fruits & roasted nuts
- vegan
- Versatile use in smoothies, bowls, yogurt, cottage cheese, as a snack for cooking and baking
- Without added flavor, color or preservatives
