## Das Land Bremen schmeckt!

### About us

The smallest state of the federal republic of Germany, Bremen, is home to a large number of different companies from the food, beverage and luxury food industry, including young start-ups and established global companies. Since 2011, NaGeB has been involved as an interest group for the concerns of this industry. Themes like the tailor-made qualification of specialists, further training measures, mentoring for founders in the food industry, the establishment of pilot projects and a permanent exchange in a large network make us a valuable partner in the Bremen food sector. In doing so, we build our network continuously and bundle the common interests of our members in Bremen, Bremerhaven and the entire region.

WE CONNECT!

### Our portfolio for your success

- We want NaGeB to continue giving the food industry a voice for the long term according to their importance for our region.
- We want to focus national attention on Bremen as a location of relevance in the food, beverage and luxury food industry.
- We demand of politicians to show clear commitment to Bremen for production and trade.
- We provide a strong NETWORK to exchange actively and promote mutual support within the industry.
- We support FOUNDERS and young START-UPS in the regional state of Bremen and network them with potential partners and service providers in the industry as required.
- We promote the excellent SCIENCE LANDSCAPE of the region and support research projects through intensive exchange and contacts to industry and business.
- We provide our industry a PLATFORM FOR EXCHANGE.
- We work in close contact with educational institutions and support the EDUCATION and QUALIFICATION of PROFESSIONALS in our sector.
- We support the search for suitable COMMERCIAL AREAS/REAL ESTATE and their connection so that our industry can continue to grow.

- We represent the industry in relation to politics
- We support problem solving with our network
- We promote the start-up scene

- We bring new and established players together
- We promote innovation and science
- We promote the region as the center of Germany's food and luxury goods industry
